REF 18150F-KD

ONE-CARE® ALCOHOL PREP PADS

REF 1021

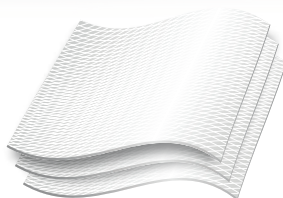

Soft, absorbent, nonwoven pads are saturated with 70% Isopropyl Alcohol which exceeds CDC's recommended 60% alcohol content for optimal antiseptic action.

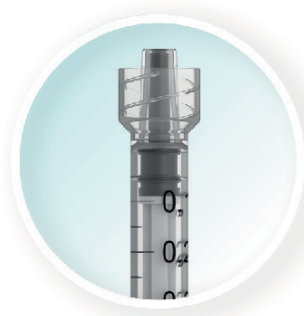

Intended for Individual, Professional and Hospital Use in preparation of skin prior to an injection or blood collection, cleaning of minor cuts and scrapes, or cleaning of medical equipment and supplies

Compact Box of 100 pads for optimized storage and shipping cost

MEDIUM

▶ 70% Isopropyl Alcohol For External Antiseptic Use Only

**ONE-CARE®
LUER-LOCK
"ZERO-DEAD SPACE"**

MediVena's **ONE-CARE® Syringes and Needles** have "low-dead space" designs to reduce waste of vaccination and to allow for extractions as many doses as possible to maximize the vaccination opportunities for population. In particular, **ONE-CARE®** injection syringes of 1 ml have elongated piston tip design to leave low-to-zero "dead space" within syringe.

ONE-CARE® LUER-LOCK DISPOSABLE SYRINGES

REF 2002

1 ml

Luer-Lock 1ml syringes for secure connection with hypodermic needles

Silicone lubrication
Ensures smooth plunger movement

High-transparency barrel
Makes it easy to see syringe content

Safe plunger backstop
Prevents accidental withdrawal of plunger

Large and stable plunger grip
Ensures stability and comfort during injection
